

PETITION

City of Albany

Office: 102 North Road Yakamia WA 6330

Postal: PO Box 484 Albany WA 6330

Email: staff@albany.wa.gov.au

To the Mayor and Councillors of the City of Albany, we the undersigned, do respectfully request that the Council implement the following traffic safety and calming measures in the area near Bluff Rock Reserve, Spencer Park:

1. Place "Local Traffic Only" signs adjacent to Bluff Rock Reserve.
2. Improve traffic calming by modifying the island at the David St and Tassell St intersection, and at installing one at David and Collingwood Rd.
3. Establish a 40km area speed limit.

We concerned residents have signed this petition to improve the traffic safety for people and animals. We have witnessed increased levels of traffic volume and speeding with consequent increase in road kills of beloved local wildlife, and greater risk to other road users.

The roads are North Road from Campbell Road into Tassell Street, then David Street to Lyttleton Street, to Hillman Street into Collingwood Road to the Angove Road roundabout.

Principal Signatory of Petition: As the initiator of this petition, my name and contact details are below:

Name: Susan Hicks

Address: 16 Hillman St, Spencer Park

Telephone: 0403 969 149

Email: siouxhix@gmail.com

Acknowledging, as the initiator of this petition, I am the primary point of contact and am responsible for advising petitioners of the outcome of this petition.

Total Number of Signatures Received: 75

Signatories follow on additional page/s

Background:

Local residents have noticed a substantial volume of motor vehicles being driven at dangerously high speeds in either direction, enjoying a mini 'race track' style drive along North Rd and Tassell St, winding into David St and Lyttleton St, Spencer Park, between Campbell Rd and Lyttleton St, turning into Hillman St and then onto Collingwood Rd. This threatens the safety and peace of this otherwise quiet residential area.

Safety Reasons:

There are significant safety concerns especially along Tassell St next to the Bluff Rock Reserve & at the intersections of Tassell St and David St including for:

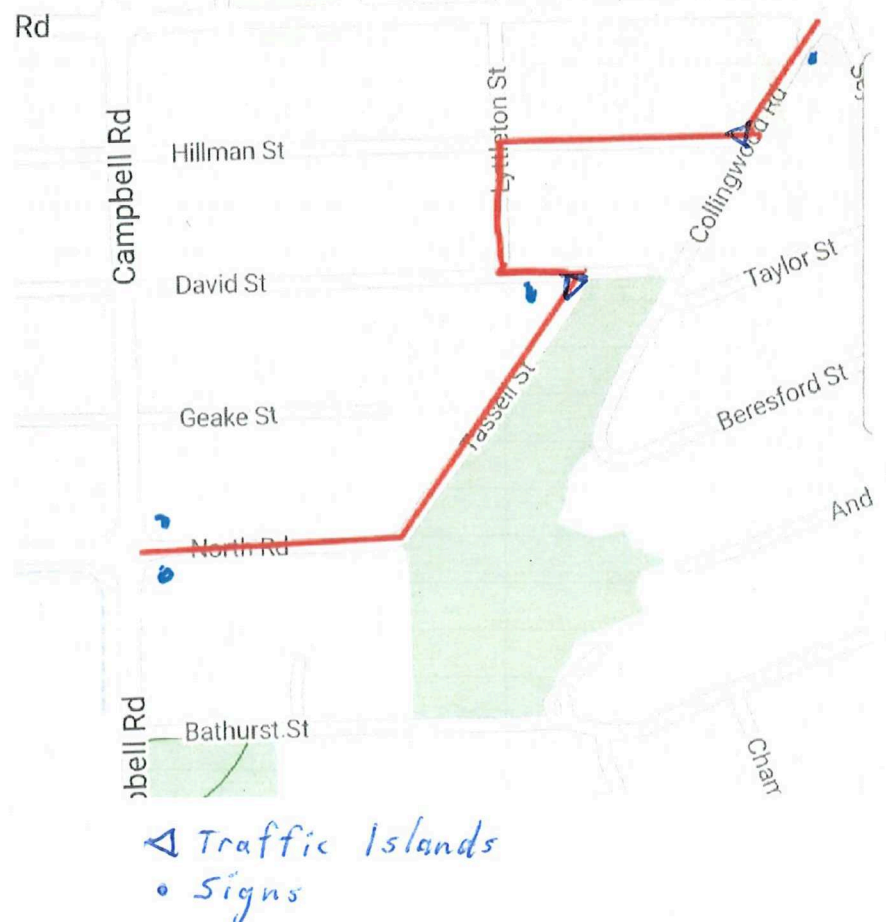

1. **Pedestrians & cyclists**, including the many school **children**, **elderly** residents, and **dogs** with their walkers, and who enjoy the route via the Reserve and around into David and Lyttleton Sts. There is a path only on the Reserve side. The other side of Tassell St, where many pedestrians and cyclists cross over to continue their route, is very steep with little room to safely move off the road quickly if a vehicle zooms along the road.
2. Other **drivers** – the steep curve at the top of North Rd into Tassell St is narrow with limited visibility of the road ahead, as is the rapid dogleg turn into David St and Lyttleton St.
3. **Wildlife** that live throughout both the Reserve and neighbouring area. These include **critically endangered Western Ringtail Possums**, Bandicoots, Bobtail and King Skink lizards, Magpies, **endangered White and Red-tailed Black Cockatoos**, etc. These creatures are greatly valued by local residents who have developed pet-like relationships with many individual critters living in or near their properties and the Reserve. Many of us suffer significant distress each time another animal is found dead as roadkill – the regular, ghastly, collateral damage for the speeding "funriders" who wilfully ignore any "Wildlife" signs.

Common sense warrants the majority of traffic should use the more appropriate routes of Campbell & Angove Roads, and clearly some irresponsible and dangerous road users need greater encouragement to do so.

The only necessary reasons to drive these routes are if you reside in them, are visiting, or service vehicles.

The likelihood of collisions with any of the above road users will be greatly reduced with less traffic and lower speed limits.

We look forward to Council seeing the good and common sense presented in this humble request.

Petition to the City of Albany

Traffic Safety and Calming Measures: Bluff Rock Reserve neighbourhood

To the Mayor and Councillors of the City of Albany, we the undersigned, do respectfully request that the Council implement the following traffic safety and calming measures in the area near Bluff Rock Reserve, Spencer Park (See map overleaf.):

1. Place "Local Traffic Only" signs adjacent to Bluff Rock Reserve.
2. Improve traffic calming by installing an island at the David St and Tassell St intersection.
3. Establish a 40km area speed limit.

We concerned residents have signed this petition to improve the traffic safety for people and animals. We have witnessed increased levels of traffic volume and speeding with consequent increase in road kills of beloved local wildlife, and greater risk to other road users.

The roads are North Road from Campbell Road into Tassell Street, then David Street to Lyttleton Street to Hillman Street into Collingwood Road, to the Angove Road roundabout.

Overleaf is the substantive background to this issue and our safety concerns.
